*¹ A4 Black Text memo
*² A4 Colour Text memo
*³ A4 Colour Text & Graphics
*⁴ 10x15cm, 8x10" Photo ('Bike' sample)

Print Speeds Note:
Print times will vary depending on computer configuration, print setting, application, coverage and page complexity.

The print times shown in this brochure are the average time for multiple prints of the same page over one minute. Times are measured from the 'Print' command to the delivery of the page in the tray. The speeds were achieved using the following system: 200MHz Pentium PC, 64MB RAM, 2GB HDD, Windows 95 or 98.

EPSON Lightfast Test Conditions

Light source:	Fluorescent light
Intensity:	70,000 lux
Temperature:	24ºC
Humidity:	60%RH
Glass mount:	2mm, soda lime
Fade criteria:	Pure YMC 30% Loss at OD=1

Display-life Calculation: Total illuminance/(500 lux x 10 hours x 365 days = 1 year)

*The data is calculated by EPSON's accelerated test and it does not mean EPSON guarantee periods.
Test developed and conducted by EPSON for photos on Indoor Display Condition.

COLOUR YOUR LIFE

EPSON®

EPSON® STYLUS™ PHOTO 935

Standalone Photo Printer with unique connectivity

- Amazing standalone photo printing from most memory card types

- USB DIRECT-PRINT – print direct from a range of compatible digital cameras

- Highest quality up to 5760 optimised dpi resolution on suitable media

- Perfect border-free photo-lab quality results with EPSON 6 colour QuickDry™ inks

- Back-up your memory cards to and print directly from compatible CD-R drives

- Automatic cutter for continuous roll media finishing and panoramic photo prints

EPSON® STYLUS™ PHOTO 935

If you're serious about photo printing, your printer should be a serious piece of equipment too. With the EPSON Stylus Photo 935, you get inkjet prints of such high quality that even professionals will be satisfied. But that's not all; the real beauty of the EPSON Stylus Photo 935 is in its printing flexibility...

THE NEXT LEVEL OF PHOTO PRINTING, ON

The EPSON Stylus Photo 935 maximises your freedom through an unrivalled number of connectivity options, letting you decide how and where you print. Four convenient ways to print for amazing photo results: use either your computer to prepare and send photos as normal, print straight from your digital camera memory card and CD-R or use USB DIRECT-PRINT via a USB cable direct from your camera. You can even print photos wirelessly using Bluetooth technology![†]

TOTAL PRINTING FLEXIBILITY

Standalone Printing

Printing photos with the EPSON Stylus Photo 935 is so easy you don't even need a PC. Just insert your camera's memory card into the printer's card slot (it accepts all leading types and without the need of any adaptor) and using the on-board LCD display panel, print with just the touch of a button. The optional 2.5" preview monitor lets you select, preview and arrange your photos, enabling you to use the printer as an on-location proofing device.

Alternatively, you can print directly from a compatible external USB mass storage device. Just plug one into the EPSON Stylus Photo 935's second USB port, browse your images** on the optional preview monitor and print from your own photo archives.

* *JPEG file (*.JPG),*

Enhanced Frame File (*.EFF), PIF File (*.USD)

USB DIRECT-PRINT

With USB DIRECT-PRINT, unique to EPSON printers, photo printing is easier than ever before. Just connect your compatible digital camera to the EPSON Stylus Photo 935 with a USB cable and the camera's LCD viewfinder lets you easily access images and control printing. This technology gives you the freedom to choose from a wide range of digital camera manufacturers, allowing total printing flexibility with the EPSON Stylus Photo 935.

Bluetooth™

Of course, if you use a device with compatible Bluetooth interface[†], you don't even need a cable to connect to your EPSON Stylus Photo 935[†]... just print the images wirelessly.

† Please check compatible product list on your local EPSON website.
Bluetooth support available in EU countries, Switzerland, Iceland, Norway and Estonia.
Requires optional Bluetooth™ module.

LY FROM EPSON

Unique Storage Capability

The EPSON Stylus Photo 935 gives you unique options for retrieving and storing your photos. For consistent ease and flexibility within standalone operation, an external USB CD-R or Zip drive* can be connected, onto which you can download your photos for storage and backup purposes.

Advanced Photo Quality

EPSON's unique inkjet technologies are all here, working together to give you an industry-leading print resolution of up to 5760 optimised dpi.* Coupled with this, the expanded 6 colour EPSON QuickDry™ inks are there to achieve the finest colours and shades possible, beautifully detailed, boasting amazing tonal depth and gradation.

*on suitable media only

Photo-lab Borderless Finishing

It's no good having fast and flexible printing if you've then got to spend time finishing your prints by hand. Thanks to EPSON BorderFree™ exclusive technology, the EPSON Stylus Photo 935 prints perfect border-free photos on several paper formats including 10 x 15cm and A4 sizes, which are lightfast for up to 25 years (see Lightfast Test Conditions). Print whole sets in one go or create special banner and panoramic enlargements using the roll paper holder and photo cutter.

Creative Software Bundle

To help you get every last drop of performance satisfaction from the EPSON Stylus Photo 935, it comes bundled with a host of EPSON software. PhotoQuicker 3.4 makes it easy to create multiple print layouts and image enhancements on all paper sizes and types.

It is also enabled with EPSON PRINT Image Matching II™ to ensure your digital photos are always faithful to the original captured image. Additionally, EPSON Print Image Framer™ 2.0 and Print Image Framer™ Designer 2.0 let you have fun with your photos: creating, uploading and applying frames.
